### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the Specification, on pp. 1, line 2, insert -- This application is a 371 of PCT/JP03/05334, filed 04/25/03. --

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The semiconductor device of claim 3, which is incorporated into claims 4-7, is allowable. Even though the language of claim 3 has been changed from "right under" to "generally under," the other limitations of claim 3 render the claim allowable. For example, at least the isolation region of a first conductivity type formed at an outer edge of said second semiconductor region, and a sixth semiconductor region formed in a surface area of said second semiconductor region so as to contact said isolation region, wherein said semiconductor region which is present generally under said sixth semiconductor region has a same thickness as that of said second semiconductor region which is present generally under said peripheral portion is neither anticipated nor obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
